

Gestures for CAD and BIM **(AutoCAD, ArchiCAD, Revit)**

Authors: Josef Remeš, Ondřej Pilný

Gestures help effectively control application and great replacement for keyboard shortcuts. If you try gestures, you can use free hand to enter distance values or drink a cup of tea. Moreover, there is a possibility to set one gesture for several tools (commands) in the different applications (AutoCAD, ArchiCAD, Revit, ...).

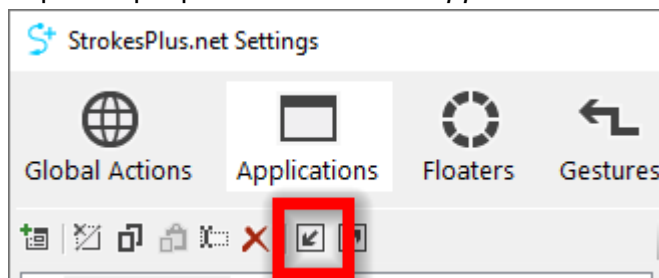

WARNING: Gestures are highly addictive.

Print the list of gestures before first use in your project. You can no longer need it, when you finish your first project with gestures.

TIP: Gestures application on your USB flash drive might become handy whenever being away off your native computer.

Gestures setup

1. Download and install application for gestures *StrokesPlus.net* (www.strokesplus.net).
2. Open StrokePlus.
3. Go to *Applications*.
4. Import *.spexport file and check *Applications* and *Gestures*.

5. Press button *Apply*.

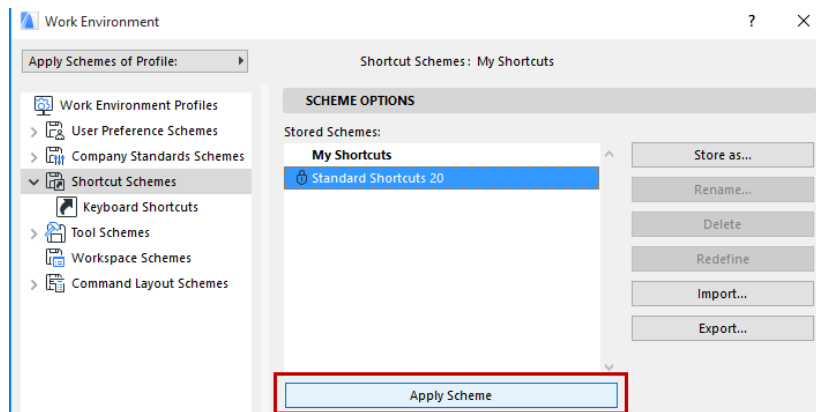

AutoCAD setup

It's not necessary to make any additional settings in AutoCAD.

ArchiCAD setup

As it was mentioned, it is necessary to setup most of the keyboard shortcuts in order to utilize downloaded and pre-defined gestures (*StrokesPlus.net_Gestures_ArchiCAD.spexport*).

1. Download file *KeyboardShortcuts_ArchiCAD_Gestures.xml*.
2. Start the application *ArchiCAD*.
3. Go to *Options > Work Environment > Keyboard Shortcuts > Shortcut Schemes* and click on *Import* button.

4. Select file *KeyboardShortcuts_ArchiCAD_Gestures.xml* and press *Import*.
5. Importer scheme will be displayed in *Stored Schemes*.
6. Select *Klávesové_zkratky_ArchiCAD* scheme and press *Apply Scheme*.

Note: It is necessary to mention that all the keyboard shortcuts are created and defined for QWERTZ Windows keyboard layout and for Czech users, which utilize signs such as Ě, Š, Č and others, which are placed on keyboards accordingly to the illustration.

° ;	1 + ~	2 ě	3 š	4 č	5 ř	6 ž	7 ý	8 á	9 í	0 é	% =	← Backspace
Tab ↹	Q \	W	E €	R	T	Z	U	I	O	P	/ ú ÷	() ×
Caps Lock ↕	A	S d	D Ď	F [G]	H	J	K l	L ł	" ů \$! §	Enter ↵
Shift ↵	Y	X #	C &	V @	B {	N }	M	? ,	: <	- >	* -	Shift ↵
Ctrl	Win Key	Alt							Alt Gr	Win Key	Menu	Ctrl

Revit setup

To take advantage of full functionality (all gestures working) it is necessary setup and add some keyboard shortcuts highlihten by blue color in list of gestures.
